

THE VOYAGE OF BUCK

VOL. V

**WILLIAM “BUCK” CLARENCE
LIVED IN THIS HOUSE 1900 – 1935**

Born in 1864, Buck was a philanthropist, polo player and travel companion of Prince Albert Victor, Grandson of Queen Victoria.

Educated at Edinburgh and Cambridge, Buck's love of travel began after he was embroiled in the Cleveland Street Scandal of 1889. Buck fled London with The Prince to begin a Royal tour of India. He was made Honorary Major, 4th Regiment, Bengal Infantry where he lived as a guest of the Maharajah.

After many global adventures, Buck returned to his beloved Scotland in 1900 and continued to support music and theatre and was a patron to many young performers of the day.

VOLUME V

WELCOME

The List is spread across four key cities, showcasing the flavours, emotions and experiences encountered by Buck on his many voyages so you too, can travel the world through drinks and conversation.

In addition, our bartenders will happily mix a classic cocktail or zero proof alternative for you to enjoy.

OUR COMMITMENT TO GREAT DRINKS

We have moved away from wasteful fresh single use garnishes. We use house made cordials to create flavour and adopt washing, aging and smoke to change the profile of a drink.

Our approach to waste is simple – we aim to create as little waste as possible. We reuse and upcycle ingredients to make citrus stock, liqueurs and sherbets. Edible garnishes are pickled or otherwise preserved to extend their life.

WE TAKE OUR ICE SERIOUSLY...

We use a Japanese Hoshizaki ice machine for cubed and crushed ice. This ice is superior in shape, clarity and quality - allowing us to make and serve elevated cocktails.

We happily support The Edinburgh Ice Company for our use of larger block ice. The ice has been filtered and agitated over three days and allows the drink to hold its temperature. The larger block will melt more slowly to reduce the dilution of the drink and retain its quality of flavour until the last sip.

Enjoy,

TEAM BUCK

*Aqua faba – we use a plant-based house alternative to egg white

*(Vegan) – all vegan drinks prepared in an area that also handles non-plant-based ingredients

* We cannot guarantee the absence of nuts in any of our drinks. Please make us aware of any allergies.
Allergen matrix available on demand.

ZERO PROOF

There are many reasons as to why people are drinking less or no alcohol. We are not here to question or comment. Instead, we have created beautiful cocktails and highballs to allow us to have the same enjoyable experience as those drinking alcohol.

In addition, we have added a selection of low or zero proof beers and sparkling wine for you to enjoy. Each product has been hand-picked by the team for its flavour profile and sustainability credentials.

MEXICO CITY

Mexico City played a major role in the Spanish Empire and their influence remains today. It is the largest capital city in The Americas and one of only two founded by indigenous peoples.

Gatekeeping the past and showcasing the future – The city has become a hub for both Modernist Architecture devotees and those wishing to witness Aztec remains or art pieces from globally renowned artists Diego Rivera and Frida Kahlo

The second half of the 20th century saw the arrival of the “Beat Generation”. Writers including Jack Kerouac and William S Burroughs shared their love affair of tequila, tamales, hot chillies and mole sauces with the world.

Today, Mexico City boasts a number of Michelin restaurants and world’s Top 50 bars. It continues its modernist approach to creativity whilst referencing the past.

AMALFI COAST

The dream-like Amalfi Coast in Southern Italy has been a holiday escape for the world's jet set reaching all the way back to the Roman Empire - earning its nickname "the Divine Coast".

The pastel-coloured buildings cascading down to the Tyrrhenian Sea have served as both inspiration and location for Iconic film directors Fellini and Rossellini and the warm Mediterranean climate has allowed for Amalfi lemons and olive trees to flourish.

Imagine a warm evening, sipping spritzes or espresso and enjoying the natural beauty of Positano or joining in with the Glamorous yacht parties of Capri.

It's easy to see why Steinbeck described the area as "a dream place that isn't quite real when you are there and becomes beckoningly real after you have gone".

HANOI

Hanoi is one of the fastest growing cities in the world and blends 1000 years of history with a bustling street life.

Known as the “City of the soaring Dragon” after the red river which curves round the city - Hanoi blends French colonial architecture and brutalist apartments with disorganised alleyways and water puppet theatre.

The smoke, citrus, sweet fruits and spices of the night food markets beautifully contrast the Vietnamese coffee culture of Hanoi’s famous Train Street - where cafes sit dangerously close to the train tracks.

SEOUL

Seoul is South Korea's largest city and is rated as one of the most liveable cities in Asia.

The Current Korean Wave that is sweeping western Europe is blending pop culture, music and fashion. Led by K-Pop superstars, Korean street wear brands and TV show phenomena - Korean Fashion week has just celebrated its 25th year with British powerhouses, Mulberry and Burberry choosing Korean Icons as their key global stars of tomorrow.

The rise of Korean BBQ and Soju across Western menus has fuelled a demand for smoky, sweet flavours and pairing citrus fruits with hot spices is a global trend that is here to stay for some time to come.
